

**QuantaRed Technologies GmbH** is an emerging manufacturer of laser-based measuring instruments for chemical-analytical applications. As an innovative high-tech company, we develop products in the field of environmental protection technology / process measurement technology based on the latest research results.

We are a technology leader in the field of liquid spectroscopy and work together with international partners on next-generation measuring instruments.

**To strengthen our team we are looking for an**

### **Senior Scientist/Project leader/Project management (m/f/d)**

For R&D laser based high-tech device development within international and national funding agencies

**In Vienna (full-time).**

#### **Key responsibilities:**

- Technical project management in interdisciplinary R&D projects
- Planning and development of new sensor/measurement systems in the laboratory
- Coordination of project partners in national and international Projects
- Adaptation of innovative research results into user friendly prototypes
- Technical reporting internally and to funding institutions (EU, FFG)

#### **Our expectations:**

- Fascination for innovations and willingness to deal intensively with novel technology

- Higher technical or natural training in the field of process technology, chemistry, physics or similar (DI, MSc, PhD)
- Experience in planning and managing of (funded) R&D project advantageous
- High level of creativity and flexibility in a start-up environment
- Professional experience in the field of chemical analysis, photonics, measurement technology, mechatronics, chemistry/process engineering advantageous
- Interest in challenging tasks in the field of infrared sensors
- Good knowledge of English

**Our offer:**

- A varied and demanding area of responsibility with a high degree of creativity
- Excellent working atmosphere in a young and dynamic team
- Flexible working hours
- Location just a five-minute walk from the main train station and a two-minute walk from the U1 station Keplerplatz
- A monthly salary from EUR 3.123,55 (14 times a year, on a full-time basis) depending on the specific qualification and previous professional experience, with willingness to overpay, based on specific qualification and relevant experience.
